Audit Findings

Audit Narrative

A PREA audit of the Scotts Bluff County Adult Detention Center was conducted November 19th - 20th, 2018 by Chris Sweney, Certified PREA auditor. As part of the audit a full tour of the facility was conducted along with document reviews and staff and inmate interviews. The tour included all area of the main facilities including inmate housing, booking, kitchen, laundry, recreation, control, program areas, medical and administrative offices. Pre Audit posters where observed in all housing and common areas. No inmates specifically requested to speak with the auditor nor did the auditor receive any written correspondence from inmates or staff prior to the onsite visit.

Following the tour the PREA Coordinator provided the auditor with a roster of staff assigned to each shift. A total of six (6) random staff interviews from all shifts were conducted. Random staff interviews included questions about PREA related training they are provided, first responder responsibilities, information provided to inmates upon intake and initial screening of inmates when arriving at the facility. Supervisors from each shift were asked about unannounced rounds, first responder duties and how to initiate an investigation. Other targeted staff interviews included the Director of Corrections, PREA Coordinator, PREA Investigator, medical staff and administrative staff responsible for completing employee background checks. A total of fourteen (14) formal staff interviews where completed.

Following staff interviews the PREA Coordinator provided the auditor with a roster of all (168) inmates at the facility. Inmates were randomly selected by the auditor. At least one inmate from each housing unit was interviewed. There are no juvenile inmates housed at the Scotts Bluff Detention Center. Two Spanish speaking inmates were interview through a translator. No inmates where identified that had hearing or visual impairments, nor were there any inmate who identified as lesbian, gay or transgender. A total of twenty-six (26) formal inmate interviews were completed. The Scotts Bluff County Detention Center reported four (4) allegations of sexual abuse or harassment in the past twelve months. All four investigation case files were reviewed during the onsite visit. Of the four (4) investigations two (2) were substantiated and two (2) were unsubstantiated. The facility's response and investigative process was reviewed with the PREA Coordinator and found to be well within standard.

Instructions for Overall Compliance Determination Narrative				

The Scotts Bluff County Detention Center is a direct supervision facility and has a staffing plan which accounts for generally accepted detention and correctional practices; Scotts Bluff County follows applicable State and local laws, regulations and standards to determine staffing levels. The Scotts Bluff County Detention Center has no Judicial, Federal or other internal or external findings of inadequate staffing. All components of the facility's physical plant, composition of the inmate population and placement of supervisory staff are also considered. Although all components of this standard are required by policy to be considered in the development and annual review of their staffing plan, during the onsite visit Scotts Bluff County did not have a way to document all components are being considered. The auditor discussed several ways the facility could better document the review of their staffing plan with the Director and PREA Coordinator.

Deviations from the staffing plan are documented and reported to the Director of Corrections. Staffing requirements are assessed annually and adjustments are made if necessary.

Unannounced rounds are completed by supervisors on each shift and documented in a permanent log book. The Sergeant/PREA Coordinator provided a copy of tour logs with the pre-audit documentation which shows this as a regular practice. During the onsite visit, supervisors demonstrate how unannounced rounds are documented. Random inmate interviews indicated that supervisors as well as administrative staff made regular rounds. Policy prohibits staff from alerting other staff members that supervisory rounds are occurring.
